## Home Watch Makes a Difference and Save Lives

Dear Future Friends and Families,

Please can I encourage you to help the Police and I, to spread these and future messages, among your friends, family, neighbours, work colleagues, any organizations that you are a member of, and place of worship you attend, especially taking a little time to talk to the elderly and vulnerable who are usually not on email. By caring, and sharing this information, the culprits of many crimes can be quickly apprehended and brought to justice, protecting future victims from suffering and helping our communities to become and remain safe, peaceful and happy places to live.
